

Holding a number of heat pump patents, MyDATEC is the undisputed leader in thermodynamic Controlled Mechanical Ventilation

MyDATEC :

more than 15 years experience with CMV products

more than 4000 installations in France

more than 300 testimonials on our web site

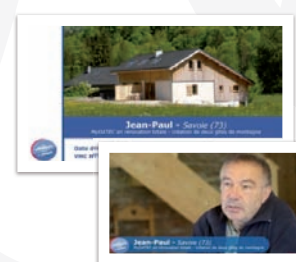

«In my view, CMV MyDATEC is a real solution for the future (...). It's equally suitable for renovation projects or new builds».
Eric.D

«Installation was child's play, as easy as a construction kit».
Gabriel.M

«You should seriously think of including this from the start of the job. For me it's really been worth it».
André. M

«I'm completely won over! (...). It's really worth it».
Jean Paul.C

Modèle RTV, existe aussi en version horizontale.

MyDATEC: all from this little box

Ventilation

Heating

Active cooling

Improved air quality

Return five times the energy it uses!
