

## Filtering

### Principle

MyDATEC offers a quality filtering choice tailored to your needs.

### Set-up

- Replace every 6 months
- Filter timer on your touch-sensitive control

### BENEFITS

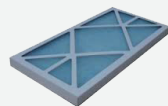

Improvement of indoor air quality

### Description

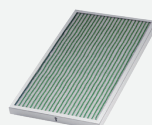

#### POLLEN FILTER

Pre-filtering to stop largest particles / Filter  
Anti-pollen (insects, textile fibres, hair, sand, ashes, pollen)

#### PARTICLE FILTER

Filtering of spores and sediments (e.g. cement)

#### ANTIBACTERIAL FILTER

Highly effective filtering of soot and dust, full of bacteria.

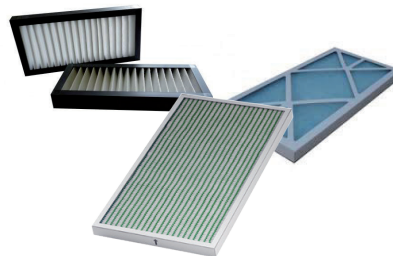

## Range

Machine protection filter

Indoor air quality filter

DESIGNATION	REFERENCE
Anti-pollen filter for Smart+ V	FILTRE G4 SMART+
Machine protection filter for Smart+ V	FILTRE G4 SMART+
Fine particle filter for Smart+ V	FILTRE M5 SMART+ INSUF
Antibacterial filter for Smart+ V	FILTRE F7 SMART+ INSUF

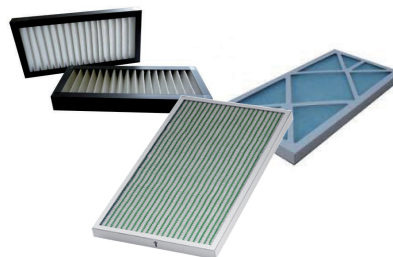

Machine protection filter

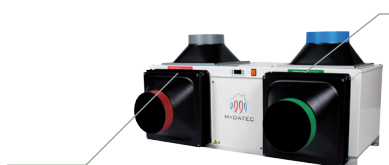

Indoor air quality filter

DESIGNATION	REFERENCE
Pollen filter for Smart V	FILTRE G4 RTV
Machine protection filter for Smart V	FILTRE G4 RTV
Fine particle filter for Smart V	FILTRE M5 RTV INSUF
Antibacterial filter for Smart V	FILTRE F7 RTV INSUF

Machine protection filter

Indoor air quality filter

DESIGNATION	REFERENCE
Pollen filter for Smart H or R	FILTRE G4 RTH
Machine protection filter for Smart H or R	FILTRE G4 RTH
Fine particle filter for Smart H or R	FILTRE M5 RTH INSUF
Antibacterial filter for Smart H or R	FILTRE F7 RTH INSUF
